

# Helicopter

## Table Of Contents

- [1 Information](#)
- [2 Overview](#)

Helicopter is a unit class/type for helicopter types of aircraft units.

(This article is currently under construction!)

## 1 Information

Helicopter types of units comprise all rotary-wing aircraft, as well as some other special types of aircraft that have similar properties as helicopters. The Helicopter (also known as the generic data name 'Bact') is the basic default model of vehicle types in the game engine.
