

Urban Assault Wiki Restoration Project

Table Of Contents

- [1 Information](#)

Primary objective and description about the Urban Assault Wiki Restoration Project.

1 Information

UA Wiki Restoration Project is currently under progress. It will be a long term plan since there are many data and information to be restored while meeting the quality standard. Additionally, a standalone UA wiki website for more classic views and easier access is also planned as well. Please excuse the work in progress!

Index Page contains some useful information about our Wiki. Also, currently the faction and unit pages are not finished yet. But the basic information and statistics about the faction units and buildings are available at the corresponding faction forums, under the thread which contains the information in a pure text form.
